

Solutions we Offer

Hardware & Software

Hardware - Win B88

Win B88 is an all-in-one touch screen Point of Sale (POS) billing machine designed for various retail and hospitality environments such as restaurants, supermarkets, and medical stores.

Key Technical Specifications (2026)

Processor: Intel Core i3 3110 or 3120 for high-speed performance.

Memory & Storage: Equipped with 8GB RAM and a 128GB mSATA SSD, which provides faster data access than standard SSDs.

Display: 15.6-inch capacitive LCD touch screen.

Built-in Printer: 3-inch (80mm) thermal receipt printer with an auto-cutter feature.

Connectivity: Features inbuilt dual-channel high-speed Wi-Fi, Bluetooth, 6 USB ports, and display outputs (VGA and HDMI).

Customer Display: Includes an 8-point numerical customer display to show transaction details.

Operating System: Pre-installed with Windows 10.

Hardware Win 08-Duo

Win 08 Duo is a all-in-one touch-screen Point of Sale (POS) system designed for retail and hospitality environments such as restaurants, supermarkets, and pharmacies. As of 2026, it is marketed as a high-quality industrial-series billing machine

Hardware N10(without Sim)

Display: 5.5-inch Capacitive Touch Screen for a responsive user interface.

Processor: Powered by a 4-Core CPU (Quad Core Cortex MT6580).

Memory & Storage: Equipped with 2GB RAM and 16GB internal storage, which is expandable up to 64GB.

Operating System: Runs on Android 12, ensuring compatibility with modern billing software.

Integrated Printer: Includes a built-in 2-inch (58mm) thermal printer instant receipt generation.

Connectivity: Supports high-speed Wi-Fi, Bluetooth, and features an NFC reader for contactless cards.

Battery & Camera: Features a 5000 mAh battery and a 5MP camera capable of scanning barcodes and QR codes.

Hardware N50

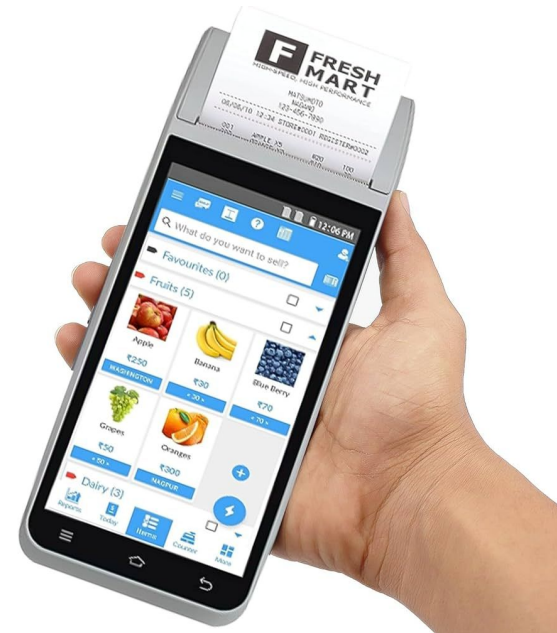

Inventory Management: Tracks stock levels automatically as items are sold and provides item-wise inventory reports.

GST Compliance: The software is GST-filing ready and generates GST-compliant invoices.

Analytics and Reporting: Provides real-time insights into sales trends, customer preferences, and performance metrics.

Retail Workflows: Supports sales returns, credit notes, and the ability to hold orders during busy periods.

Hardware Integration: Ready for cash drawer integration and supports peripheral devices like barcode scanners

Hardware N80

Operating System: Powered by Android 12 or Android 13 depending on the specific model variation.

Display: 8-inch IPS touchscreen with a resolution of 1280 x 800 pixels.

Printing System: Built-in thermal printer that supports both 58mm and 80mm paper widths, commonly featuring an auto-cutter.

Performance: Typically equipped with 3GB RAM and 16GB ROM, expandable via optional configurations.

Connectivity: Supports 4G LTE, Wi-Fi, Bluetooth 4.2/5.2, and NFC for various payment and data transfer needs.

Battery: Large 6400 mAh rechargeable battery, providing approximately 25–30 hours of working time.

Scanning: Includes an integrated camera for 1D/2D barcode and QR code scanning.

Hardware Cash Drawer

A cash drawer is a secure, lockable compartment used primarily at a point of sale (POS) terminal to store cash, coins, checks, and receipts in an organized manner. They are a fundamental component in retail and hospitality businesses, helping to streamline the checkout process and enhance security.

Hardware Label/Thermal Printer

Thermal printers designed for both labels and receipts (2-in-1 hybrid printers) are increasingly popular for small businesses and retail. These devices allow you to switch between continuous receipt paper and gap-based label rolls by changing settings in their mobile or desktop apps.

Software Vyapar App

Vyapar is a specialized GST-compliant billing, accounting, and inventory management application designed primarily for small and medium-sized enterprises (SMEs). Developed by Simply Vyapar Apps Pvt Ltd in India, it is used by over 1 crore (10 million) businesses to digitize their operations.

Software Lystloc

Lystloc is an AI-powered field workforce management and real-time employee tracking platform. It is primarily used by businesses to monitor field operations, automate attendance, and manage sales teams through location intelligence.

- ❖ Workforce Attendance
- ❖ Vehicle Tracking
- ❖ Share your live location

Software Inventory Migrator

Our inventory app is offline-first, GST-ready, and built specifically for Indian MSMEs. It combines real-time stock tracking, supplier linkage, multi-location support, and AI-driven insights in a simple mobile and web interface—helping businesses reduce stock loss, avoid over-buying, stay compliant, and operate efficiently even with poor internet connectivity.

Everything You Need to Manage Your Inventory

Comprehensive inventory management solution with advanced features for modern businesses.

Smart Inventory Management

Track products, stock levels, and manage multi-location inventory with real-time updates.

Purchase Order Management

Create, track, and manage purchase orders with supplier integration.

Sales & Purchase Invoices

Generate GST-compliant invoices with automatic tax calculations.

GST Compliance & Tracking

Automated GST calculations, tax tracking, and comprehensive reports.

Advanced Financial Reports

Profit & Loss, Trial Balance, Sales Reports with detailed analytics.

Ledger & Accounting

Complete ledger management with income, expense tracking.

Supplier & Customer Management

Invoice Aging & Payments

Multi-Company Support

Software Carat Control

Carat Control is a precision-focused inventory and operations app designed for jewelry and high-value goods businesses. Its USP lies in accurate weight/carat tracking, purity-wise inventory control, loss/theft prevention, and GST-compliant reporting, combined with offline support and role-based access—helping jewelers maintain transparency, reduce leakage, and manage high-value stock with confidence.

Gold Collection Management

Track all gold items with purity, weight, pricing, and detailed specifications. Manage your precious metal inventory with precision and care.

Precious Stones Catalog

Catalog and manage precious stones including diamonds, gemstones, and rare stones with detailed characteristics and valuations.

Jewelry Collection

Complete jewelry inventory management with images, descriptions, specifications, and comprehensive tracking of all your elegant pieces.

Craftsmen Tracking

Manage and track your craftsmen, assign projects, monitor performance, and track specialties. Ensure quality craftsmanship across all projects.

Point of Sale (POS)

Complete POS system for quick checkout, multiple payment methods, receipt generation, and seamless transaction processing.

Customer Ledger

Track customer transactions, manage credit, maintain purchase history, and handle customer relationships with comprehensive ledger management.

Staff Management

Complete employee management system with roles, permissions, performance tracking, and comprehensive staff administration.

AI Analytics Dashboard

Advanced analytics and insights with AI-powered recommendations. Track sales trends, revenue, inventory turnover, and business performance.

Comprehensive Reports

Generate detailed business reports including sales reports, inventory reports, financial summaries, and custom analytics.

Business Settings

Configure company profile, payment settings, business hours, tax settings, and customize your business operations.

Secure & Reliable

Enterprise-grade security with data encryption, regular backups, and secure cloud storage for complete peace of mind.

Luxury Brand Management

Maintain your luxury jewelry brand with professional inventory management, elegant presentation, and premium business tools.

Software RMP POS

Retail Marketing Pro is an all-in-one, offline-first business operating system for Indian MSMEs. Its key USP is simplicity without compromise—combining POS, inventory, GST compliance, UPI payments, multi-location control, and AI-powered insights in a single platform that works reliably even in low-connectivity environments, with no hidden fees and full transparency.

From single location to multi-chain management, we've got you covered.

Multi-Location Management

Manage multiple business locations from one dashboard

Mobile POS Integration

Sync with Android POS devices for seamless transactions

Real-time Analytics

Track sales, inventory, and performance metrics

Flexible Pricing Plans

Choose between free and paid plans based on your needs

Industry-Specific Features

Customized features for different business types

Transaction Processing

Secure payment processing with transparent fees

Value added Services

Starter Plus: Online payments/ Payment links / Basic reports

Growth Pack: Facebook/Instagram Ads / Online ordering / Analytics dashboard

Pro Commerce: Payments + Ads + Online Store / Priority support / AI recommendations
